DETAILED ACTION

Response to Arguments

Applicant's arguments filed on April 7th, 2005 have been fully considered but they are not persuasive. The applicant argues that Wadsworth does not provide thermally bonded laminate. The examiner would like to point that is a method process and it is not given weight on an apparatus claim. Wadsworth does provide a non-woven fabric but the reference does not say it is treated with surfactants. LaVon provides the surfactant treatment. Therefore it would have been obvious to modify Wadsworth's invention by providing the non-woven fabric of Wadsworth with the surfactant treatment described in LaVon's reference in order to absorb the fluid quicker.

Therefore claims 1-28 are still rejected under 35 U.S.C. 103(a) as applied in previous office action dating back to December 28th, 2004.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
